**Punjab Pollution Control Board**  
**Vatavaran Bhawan, Nabha Road, Patiala**

Office Order

No.....307  
Date...15/10/08

In order to check the pollution potential and/ or monitor the performance of the pollution control systems installed by the industries, teams of the officers of the Board are constituted from time to time. The mandate of the teams is to check surprising the performance of the pollution control systems installed by the industries to control water, air, noise and management of hazardous waste/ bio-medical waste/ solid waste/ any other pollution. However, it has been observed that the inspection reports of the visiting teams are not received in time and these are submitted even after period of one month from the date of inspection of the industry. Thus, the very purpose of inspection of the industry is defeated.

It has, therefore, been decided that all the inspection teams should submit their inspection reports including the analysis results of effluent, air emissions, noise levels, water samples, soil samples and any other parameter pertaining to the particular industry within a period of 7 days from the date of inspection of the industry. The visiting teams are liable to be answerable in case the visiting reports are not received within the period of 7 days. Further, the Head of Visiting Team will hand over the observation sheet including copy of data sheet to the Member Secretary of the Board on the same day on which the industry is inspected. Also, the Head of the Team will attend the office of the Chairman with complete documents on the day of hearing given to the industry for its violation under the provisions of the various Environmental Laws/ Rules.

These orders shall come into force with immediate effect.
