## 1. DISTRICT PROFILE

Hoshiarpur, one of the oldest Districts of Punjab, is located in the North-East part of the State of Punjab and shares common boundaries with Gurdaspur District in the North-West, Jalandhar and Kapurthala Districts in South-West, Kangra and Una Districts of Himachal Pradesh in the North-East. Hoshiarpur District comprises 4 Sub-Divisions, 10 Community Development Blocks, 9 Urban Local Bodies and 1417 Villages. The District has an area of 3365 km<sup>2</sup> and a population of 1,586,625 as per Census 2011.

It falls into two nearly equal portions of hill and plain country. Its eastern face consists of the westward slope of the Solar Singhi Hills; parallel with that ridge, a line of lower heights belonging to the Sivalik Range traverses the District from South to North, while between the two chains stretches a valley of uneven width, known as the Jaswan Dun. Its upper portion is crossed by the Sohan torrent, while the Sutlej sweeps into its lower end through a break in the hills, and flows in a southerly direction until it turns the flank of the central range, and debouches westwards upon the plains. This western plain consists of alluvial formation, with a general westerly slope owing to the deposit of silt from the mountain torrents in the sub-montane tract. The Beas has a fringe of lowland, open to moderate but not excessive inundations, and considered very fertile. A considerable area is covered by Government woodlands, under the care of the Forest Department. Rice is largely grown, in the marshy flats along the banks of the Beas. Several religious fairs are held, at Anandpur Sahib, Dasuya, Mukerian and Chintpurni, all of which attract an enormous concourse of people. The District, owing to its proximity to the hills, possesses a comparatively cool and humid climate. Cotton fabrics are manufactured, and sugar, rice, other grains and indigo are among the exports.

The closest airport to Hoshiarpur is Adampur Airport,[11] 25 km (16 mi) South-West of the city. Adampur Airport, is a regional airport which serves one daily flight by Spicejet to Delhi Airport and another Spice Jet flight to Mumbai (Frequency varies). The nearest full fledged International Airport is Sri Guru Ram Dass Jee International Airport in Amritsar, which is situated around 125 km North-West of Hoshiarpur. Latitude and longitude coordinates are: 31.527355°, 75.913673° and is situated in Northern Punjab, Hoshiarpur.

## District Administrative Set-up

### Local institutions

In District Hoshiarpur, there are total 04 Tehsils, 11 towns & 01 Municipal Corporation. There are 05 Sub-Tehsil, 09 Blocks, 7 Municipal Council and 2 Nagar Panchayat. There are total 1416 Villages in the District & have 1416 Gram Panchayats.

### Natural Resources

#### • **Water bodies:**

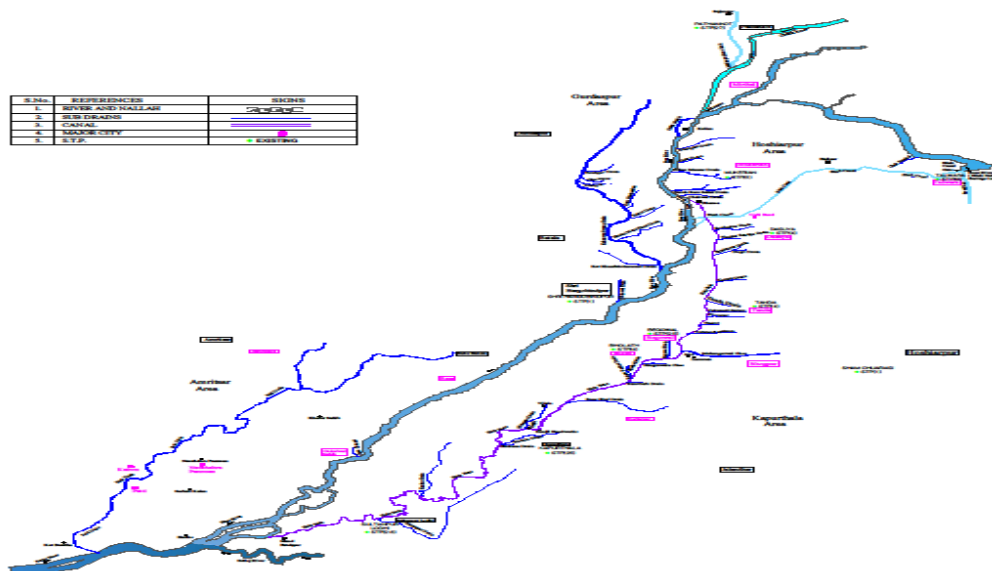

##### - River Beas

Though the District Hoshiarpur lacks a perennial river, it has tributaries of Beas and Sutlej inundating its land towards North Western and Southern directions. Beas River enters this District at Talwara and after a distance of 40 km forms the boundary between Hoshiarpur and Gurdaspur districts. The White Bein and Black Bein tributaries of this river occupy a major portion of District and they contain water all through the year. They originate in a jhil and then proceed like a master stream with lesser width but greater depth.

Other main water bodies found in this District are the seasonal streams called Choes. They have strong presence throughout this District and they are generally named after the areas through which they are passing. In the rainy season, these Choes get flooded with water and then this

water shrinks away fast leaving the thick deposits of sand and silt behind. They originate from Shivalik slopes and take shape of wide channels after entering the foothill plains. There are more than 100 choes flowing in this District though their channelization has been done to avoid any disaster caused by over flooding. Apart from these, there are many dams and canals like Shah Nahar Canal and Bist Doab Canal present in Hoshiarpur. The detail of major drains in District Hoshiarpur along with the details of villages discharging its effluent is as under:-

S. N	Name of the drain	Wastewater carried by the drain from which State / U.T.
1	Sadarpur Drain	Wastewater of Vill. Sadarpur.
2	Nangal Sehgo Drain	Wastewater of Vill. Sehge, Narayangarh
3	Dasuya Drain	M.C Dasuya
4	Safdar Drain	Wastewater of Vill. Buchhan, Chak Bamu, Alampur, Kahlwan, Gilzian, Ibrahimpur, Mada and other Rural areas
5	Kurala Drain	Wastewater of Vill. Gill & Kadari Chak
6	Tanda Drain	Wastewater of MC Tanda (Various outlet of Commercial and residential area) & Kotli Rural areas
7	Mehangrewal Choe	Wastewater of Vill. Tanda & MC Hariana
8	Begowal Drain	Wastewater of M.C. Begowal
9	Kingranwala Choe	Wastewater of Vill Akala and Bhagrian, Vill Bulle, Vill Pachranga, Vill Kingrawala, Vill Koja, Vill Kotla, MC Sham Chaurasi

The control of pollution in River Beas is under active consideration of the Government of Punjab. In this regard, meetings are being taken by Hon'ble Chief Minister, Punjab with various Heads of Department's at regular intervals to review their progress. Since pollution in Beas is being caused by no. of sources in Himachal Pradesh also, therefore the matter was taken up at highest level. For abatement of pollution in River Beas, Action Plan Clean River Beas has been prepared and various activities are being carried out by PPCB as per time frame prescribed in the Action Plan.

• **Availability of water resources**
